

Remarks

The Final Office Action dated March 29, 2010, has been carefully considered.

Applicants have amended claims 1, 16, 21 and 22 and added new claims 25 and 26 without the addition of new matter. Applicants have cancelled claims 7 and 8 without prejudice to the subject matter found therein. Support for the additions in the current claims can be found in:

Claims 25 and 26 – are claims 1 and 16 revised to include limitation the group of stearyl stearate, distearyl phthalate, and mixtures thereof from claims 7 and 8.

Applicants filed a response on 27 May 2010, which according to the Advisory Action dated 6/9/10, was not entered because the response did not place the application in condition for allowance and the amendments to the claims add procedural limitations not previously considered and therefore will not be entered.

It is respectfully requested that in view of the Request for Continued Examination being concurrently filed with this response that the amendments and remarks of the response dated 27 May 2010 the current Supplemental Response be considered.

Conclusion

In view of the amendments and remarks presented herein, Applicant submits that the present application is in condition for allowance, and such action is respectfully requested. If, however, any issues remain unresolved, the Examiner is invited to telephone Applicant's counsel at the number provided below.

Respectfully submitted,

/Philip P. McCann/
